

Beginners and advanced Introduction to practical carpentry with Aliza Ashkenazi.

Coming Spring courses in Muslala worksop:

- 20th cycle: Starting at 29.10.17 (Sundays between 18:00-21:00)
- 21th cycle: Starting at 30.10.17 (Monday between 15:00-18:00)
- 22th cycle: Starting at 24.11.17 (Fridays between 9:00-21:00)

The course will take place at the 'Beita Center – Home for art, society and city', that hosts the Muslala workshop. The center is located at Yafo st. 155 (in front of the entrance to Turim st.).

The course aims to teach the basic tools for working with wood, and will combine traditional techniques and electrical tools.

The course will consist of 30 hours: Ten three-hour meetings every week. In addition to the course hours, students will receive free access to the 'open workshop' where they can practice different techniques and gain woodworking experience. Opening hours for the 'open workshop' are at the [Muslala website](#).

The course is intended both for advanced students who will build self-planned projects (guided by Aliza) and for beginners who will build projects according to the syllabus.

During the initial meetings the students will build a bookshelf (or any other shelf) in which they will construct a Mortise and Tenon joint using a hammer and a chisel. The students will also learn to use a hand plane, and will learn how to sand.

The next project will be a newspaper holder (that can be used for tools as well). Here the students will also use basic tools: handsaw, hammer and chisel. In this project, the students will construct a Dovetail joint – a bit more complicated but beautiful and sturdy. This project will take place during three meetings.

In the final four meetings the students will build a coffee table. The students will use the skills they have gained so far and learn new ones. Each project will reach the final coating stage, including sanding and lacquer.

In the duration of the course, the students will also learn different painting techniques and combinations of different materials.

All you have to do is come ready to work, the rest is on us.

Aliza Ashkenazi is a graduate of the Ministry of Economies carpentry course, and has 15 years of experience as a carpenter. Aliza has been an instructor of the Beginners and advanced Introduction to practical carpentry course for the last year and a half.

Signing up and cancellations

The cost of the course is 2200nis. Signing up is through this [link](#). Refunds will be given until the middle of the course, at 75nis per meeting. In case you don't have a credit card – contact Nathan Landau for payment with cash or cheque.

For any questions, contact Nathan Landau at 0505949811 or via email at sadna@muslala.org
